

Understanding Harmony in the Society

Basic Human Aspiration

Continuous Happiness and Prosperity

Happiness is to be in Harmony

Program for Fulfilment of Human Aspiration

Understanding Harmony and Living in Harmony at all Levels

Harmony in the Human Being ✓
Harmony in the Family ✓
 **Harmony in the Society**
Harmony in Nature/Existence

Process of Understanding

Self Exploration

Whatever is stated is a **Proposal** (Do not assume it to be true/ false)
Verify it on your own right

What is my
role (value) in
the society?

What is Desirable and Where are we today?

Families living together, in a relationship of mutual fulfillment
(common goal)

Society

People living together, but not in relationship of mutual fulfillment
(differing goals)

Crowd

People living separately, in opposition / struggle
(conflicting goals)

Battlefield

We will explore:

1. Goal of human being living in society (human goal)
2. Appraisal of Current State
3. The dimensions or systems required to achieve the human goal

- Huan Goal

- What is naturally acceptable to you?
- Right understanding in every human being or only a few to have right understanding and others to follow them?
- Prosperity in every family or few families to have accumulation, and others to be deprived and dependent on the few?
- Fearlessness, based on trust and affection, in the society or a state of fear, based on mistrust and jealousy in the society?
- Co-existence (mutual fulfilment) in nature or exploitation and domination of nature?

Current Status in Society

- There is abundant availability of physical facility, like food, clothing, housing, gadgets, instruments and equipment.
- The world has become well connected – physically, by transportation and virtually by television and telecommunication.
- There is more sense of equality in the society through democracy. Governance changes hands to people who are more competent by people's vote.
- Infant mortality rates have reduced and lifespans have increased.
- Education is now a basic human right. Literacy has increased.
- However, in the absence of a comprehensive goal and programme, rather than holistic development, there are many problems.

Human Goal

Are all 4 required, desirable or we can leave something out?

If all 4 are achieved, would anything else be required?

Are we working for all 4? In the family? In the society?

What would be the sequence and priority of effort on these goals?

Human Goal

Gross Misunderstanding

Self Reflection

How much of your imagination is about these naturally acceptable human goals, how to achieve them; and slowly transition from present society to a human society?

And how much of your imagination is about the problems in the present society and how to manage in it?

Human Goal

~~In order to fulfilment of all human goals. These are five basic systems of a human society~~
Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

- Education-Sanskar -- (leads to) → Right understanding and right feeling (happiness)
- Health-self-regulation -- (leads to) → Health of the Body
- Production-Work -- (leads to) → Prosperity
- Justice-Preservation -- (leads to) → Fearlessness and Co-existence (respectively)
- Exchange-storage -- (leads to) → Prosperity and Fearlessness

Human Goal ()

Human Order

Systems / Dimensions

1. Education – Sanskar
 2. Health – Self-regulation
 3. Production – Work
 4. Justice – Preservation
 5. Exchange – Storage
-
- The diagram shows the five systems/dimensions listed on the left, with numbered red circles (1-4) placed next to them. A vertical line connects the circles for 'Production – Work' (2) and 'Justice – Preservation' (4). Below this line, there are two more circles: a red one with '2' and a light red one with '3'. To the right of these, there are two more circles: a light red one with '4' and a red one with '3'.

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar 1
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

1a. Education – To develop the right understanding of the harmony at all levels of our being – from self to the entire existence (individual, family, society, nature/existence)

1b. Sanskar – The commitment, preparation and practice of living in harmony. Preparation includes learning the skills and technology for living in harmony at all levels – from self to the entire existence (individual, family, society, nature/existence)

Education = Education is to develop the right understanding of the harmony at all levels of being – from self to the entire existence (individual, family, society, nature/existence)

Sanskar = Commitment/ Preparation/ Practice for Right Living(world-view, attitude, tendency, etc)
Preparation includes Learning Right Skills & Technology

Development of the competence to live with Definite Human Conduct

Discipline to Self Discipline

1. Right **understanding**, i.e. wisdom or clarity about what to do as a human being – in oneself, family, society, nature...
2. Right **feeling** – the capacity to live in relationship with the other human beings – in family, society...
3. Right **skills** for prosperity, i.e.
 - The capacity to identify the need of physical facility
 - The skills & practice for sustainable production of more than what is required (by way of labour using cyclic, mutually enriching process)
 - The feeling of prosperity

Human Education

Next generation has improved

- Understanding
- Feeling

Transformation & Progress

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

2b. Self-regulation – Feeling of responsibility for Nurturing, Protection and Right Utilization of the Body

2a. Health (Swasthya) –
Body acts according to Self (I)
Parts of the body are in harmony (in order)

→ Recognising What is Needed as Physical Facility

1a. Intake includes air, water, sunlight, food (food is nutritious, digestible & tasty and waste is excretable), all intake through our senses (sound, sight, smell etc)

1b. Rising time, sleeping time, eating time...

2a. Outcome of labour is production of physical facility

2b. No physical facility is produced by exercise

At the level of society, we can look at the societal systems required to support, protect and enrich family and social efforts.

- **Education system** – It is necessary to prepare the child in all dimensions of health, so that (s)he develops the feeling of self regulation and has appropriate practice to keep the Body healthy.
- **Family system** – Harmony in the family provides a conducive environment. A system of appropriate intake, routine and labour / exercise, etc. is a natural part of the family system.
- **Health system at the societal level**-the health system would be focused on ensuring health and on prevention of disease, rather than on treatment of disease alone. It would promote labour, exercise and various means to keep the Body and breathing in balance.
- **Medicine and treatment system at the societal level** – It would be run as a service with a feeling of mutual fulfilment, rather than merely as a for-profit business.

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

3b. Work: The labour a human being does on the rest of nature

3a. Production: The physical facility obtained out of work

- For any production to take place, two things are required – rest of nature (natural resource) is required and human effort (work) is required.
- There are two important issues related to production-work. These are:
 - 1. What to produce?
 - 2. How to produce?

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

Mutually Enriching, Cyclic Process (Avartansheel Process)

1. Cyclic
2. Every Unit in the Process is Enriched

This mutually enriching, cyclic process is already going on in Nature. We do not have to create it

Mutually Enriching, Cyclic Process (Avartansheel Process)

1. Cyclic
2. Every Unit in the Process is Enriched

This mutually enriching, cyclic process is already going on in Nature. We do not have to create it

Human Being without Right Understanding - Not Mutually Fulfilling

1. First, we have to ensure that whatever processes we have developed so far have to be converted into cyclic and mutually enriching processes.
2. Second, we have to take care of the damage done in all these past years.
3. Third, we have to ensure the processes we develop in the future are cyclic and mutually enriching.

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice  – Preservation
5. Exchange – Storage

4a. Justice – Recognition of Human-Human Relationship, its Fulfillment & Evaluation leading to Mutual Happiness

Harmony in Family – Justice, From Family to World Family (Undivided Society)

1. Relationship is – between one self (I_1) and other self (I_2)
2. There are feelings in relationship – in one self (I_1) for other self (I_2)
3. These feelings can be recognized – they are definite (9 Feelings)
4. Their fulfilment, evaluation leads to mutual happiness

Feelings in relationship:

1- Trust **FOUNDATION VALUE**

2- Respect

3- Affection

4- Care

5- Guidance ;

6- Reverence

7- Glory

8- Gratitude

9- Love **COMPLETE VALUE**

Justice = Recognition, Fulfillment & Evaluation of
Human-Human Relationship, leading to Mutual Happiness

Justice → from Family to World Family
→ Undivided Society

Human Goal

Human Order Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

4b. Preservation – Recognition of Human-Rest of Nature Relationship, its Fulfillment & Evaluation leading to Mutual Prosperity or Mutual Enrichment

1. Prosperity of Human Being
2. Enrichment, Protection & Right Utilisation of rest of Nature

What is fundamental?

Enrichment, Protection or Right Utilisation of Nature

- Right Utilisation of Nature

Wood of 4 full grown trees is enough for one person's needs from birth to death, including the pyre wood

How many trees can you plant in your lifetime?

- At least 10 trees?
- Or even one tree on every birthday, so 60-70 trees?

Eg. Prof. Parmeshwara Rao of Emanchally village has planted 5000 trees in each of the 100 villages near Emanchally

Human Goal

Human Order Systems / Dimensions

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

5a. Exchange – of physical facility with a view of mutual fulfilment
(not with obsession for profit / of exploitation)

5b. Storage – of physical facility with a view of mutual fulfilment
(not with obsession for profit / of accumulation)

Human Goal

Human Order

Systems / Dimensions

1. Education – Sanskar
 2. Health – Self-regulation
 3. Production – Work
 4. Justice – Preservation
 5. Exchange – Storage
-
- The diagram shows five dimensions of human order, each represented by a red circle with a number. The dimensions are listed on the left, and the circles are arranged to the right. A bracket groups the first three dimensions (Education, Health, Production) and the last two (Justice, Exchange). The circles are numbered 1 through 5, corresponding to the dimensions.

My Participation (Value) in the Society

- Ensuring happiness in the family by way of helping in the development of right understanding and right feeling in the Self of every member of the family, particularly the next generation.
- Ensuring health in the family by way of a system of nurturing, protection and right utilisation of the Body for every member of the family.
- Ensuring prosperity in the family by way of helping the family recognise the need for physical facility, its production, its protection and its right utilisation.
- Facilitating one or more members of the family to participate in the larger society, in one or more dimensions of human order.

In the larger society, my participation (value) is:

To play a role in one or more dimensions of the human order (education-sanskar, health-self-regulation, production-work, justice-preservation and exchange-storage)

A society is composed of families living together, in a relationship of mutual fulfillment. They have a common goal, which is:

1. Right understanding & right feeling (happiness) in every individual
2. Prosperity in every family
3. Fearlessness (trust) in society
4. Co-existence (mutual fulfilment) in nature/existence

The family is the basic unit in society, i.e. society is composed of family, group of families, village family, group of village families, town family... and so on, where every individual is responsible or self-disciplined and self motivated by common values, participating in the larger order toward a common human goal

Through the participation of every family in the society, in the 5 dimensions or social systems, the common human goal is fulfilled for all

- from family order to world family order
- generation after generation

1. Education – Sanskar
2. Health – Self-regulation
3. Production – Work
4. Justice – Preservation
5. Exchange – Storage

[the current civilization is largely based on the assumption that human being = body, happiness is derived primarily from sensual pleasure & feeling from other; and hence accumulation of physical facility, domination and exploitation is at the core of the socio-economic systems]

- Assuming that you would like to see your hostel or workplace or educational institution as a model of human society, write down:
 - a. Its goal(s) – relate it to the four human goals and elaborate on what each goal means. Also develop some key indicators or measures which will show that the goals are realised
 - b. The system to achieve these goals – Make a comprehensive plan for the fulfilment of each goal. Relate it to the dimensions of human order.
