Harmony in Nature/Existence – Nature

Process of Understanding

Self Exploration

Whatever is stated is a **Proposal** (Do not assume it to be true/ false)

Verify it on your own right

So far we have explored our Natural Acceptance

It is for living in Harmony – as an Individual, as a Family, as a Society...

Is there provision in Nature/Existence for living in accordance with our Natural Acceptance?

Is it possible to live in harmony as an Individual, as a Family, as a Society...?

Is co-existence, mutual fulfillment inherent in Nature?

Or

Is the design of nature/existence by way of opposition, struggle, survival of the fittest...?

We will explore the underlying design of Nature/Existence with these questions...

- Nature: Nature is the collection of all the units – the air, soil, water, plants, trees, animals, birds, other human beings and even things that are a little distant

- Although the units are innumerable, they can all be classified into just four groups or four orders:
- 1. Physical order – this includes units like air, water, metal and so on.
- 2. Bio order – this includes grass, plants, trees, etc.
- 3. Animal order – this includes animals and birds.
- 4. Human order – this includes human being.

Interconnectedness and Mutual Fulfillment among the Four Orders

Four Orders

Between Physical Order and Bio Order

Interconnected, Interdependent

Mutual Fulfillment

1. Cyclic
2. Every unit is enriched

Mutual Fulfillment = Relatedness + Fulfillment

- 1. The process is cyclic (soil is getting converted into plants and plants are getting converted back into soil).
- 2. The process is mutually enriching, mutually fulfilling (in the process, the plants are getting enriched by the soil and the soil is also getting enriched by the plants).
- This soil-plant interaction is an example of the interconnectedness and relationship of mutual fulfilment between the physical order and the bio order.

Relationship of Mutual Fulfillment

Between Physical Order, Bio Order and Animal Order

Interconnected, Interdependent

Mutual Fulfillment

1. Cyclic
2. Every unit is enriched

- Animals and birds (units of the animal order) depend on plants (units of the bio order) for their food. For example, a cow (a unit of animal order) eats grass (unit of bio order) as its food. In turn, the cow is also fulfilling for plants.
- Animals and birds help to spread the seeds of plants from one place to the other. They protect plants from harmful insects and pests.
- Similarly, the units of physical order, like air and water, are essential for animals to survive. In turn, animals enrich the soil – their dung and their dead bodies act as very good manure which makes the soil fertile.

Relationship of Mutual Fulfillment

Physical Order, Bio Order and Animal Order are enriching for Human Order, but Human Order (without right understanding) is not fulfilling for any of the 4 orders

Human beings have
natural acceptance
to be mutually fulfilling

Once human beings understand,
they can be fulfilling for all four orders

- Atmospheric CO₂ level, that was stable at 250-350PPM in the last few thousand years, has increased tremendously in the last hundred years.
- The drying up of rivers, lakes and underground aquifers.
- Rapid melting of polar and glacial ice and potential of rising sea levels.
- Depletion of forest cover.
- Farmland being taken up for human habitation / industrialisation.
- Rapid species loss and sharp reduction in bio-diversity.

Resource Depletion – The resource is used at a rate which is faster than the rate at which it is produced in nature

Pollution – The product is such that

1. It does not return to the cycle in nature or
2. It is produced at a rate that is faster than the rate at which it can return to the cycle in nature

- The units of the physical order are characterised by the activity of formation and deformation.
- In the bio order, in addition to formation and deformation, the activity of respiration is also taking place.
- The animal order is a co-existence of the Self and the Body.
- Human being is the co-existence of Self and Body

Details of the Four Orders

ORDERS	UNITS	ACTIVITY	INHERITANCE	INTERFERENCE
Physical	Soil, Metal	Formation-Deformation		
Bio	Plants, Trees	"-" + Respiration		
Animal	Animals, Birds	"-", " in Body Selecting-Tasting in		
Human	Human Beings	"-", " in Body Imaging, Analysing-Comparing, Selecting-Tasting in I Potential for right Understanding		

- Innateness is the definite self-organisation of a unit.
- The innateness of the physical order is 'existence'. This means that it exists – exists in a definite order. It is a reality and has a definite order. It exists and continues to exist
- Innateness (self-organisation) bio order is existence as well as growth.
- The animal body has the innateness of existence and growth just like plants and trees.
- The innateness of human order is existence and growth. The human body takes birth, grows, passes through various stages from childhood, adolescence, adulthood, becomes old and dies. This is similar to any animal body or a plant.

Natural Characteristics of Four Order

- Natural characteristic of a unit refers to its natural participation in the larger order
- The natural characteristic of the physical order is composition decomposition.
- The bio order participates with the bio order in terms of nurturing or worsening the other.
- In animal order, body is similar to bio order and self Self of the animal participates by way of cruelty or non-cruelty with other units of animal order
- In the human order, the human being is the co-existence of Self and Body. The Body belongs to the bio order, and hence has the natural characteristic of the bio order.
- Self of the human being is perseverance, bravery, generosity, kindness, beneficence and compassion

Inheritance of four order

- Inheritance refers to the method by which the units ensure the continuity of their definite conduct, generation after generation.
- Units of the physical order maintain their conduct by way of constitution
- For example, a piece of iron will show the definite conduct of iron, as long as its constitution remains unchanged.
- In bio order, the continuity of the conduct is maintained by way of seed.
- The continuity of the conduct of a unit of the animal order is ensured by way of its breed
- What about the human being, the human order? How is the conduct of a human being maintained? Is it based on the breed, like animals?
- The conduct of a human being is ensured by way of education and sanskar. A human being given human education and sanskar will live with definite, human conduct.

- Quantity of units in each order

Physical >> Plant >> Animal >> Human

Quantity as per overall enrichment of the whole; and availability of sustaining resources

- Dependence of each order is on all previous orders

- Survival of Human Order is dependent on all the three orders.

Harmony in Nature

All orders have definite conduct – except human order without right understanding

In human being, the Body has a definite conduct

The Self (I) operating on assuming without knowing is the source of indefiniteness, problem

The solution is to ensure knowing
(understanding harmony)

Human beings inherently have a
natural acceptance to know,
to be in harmony

For this,
human education-sanskar
Is essential

Significance of Education-Sanskar for Human Order

- The units of physical, bio and animal orders are maintaining their definite conduct – they are already in harmony within and are exhibiting their natural characteristic.
- It is only the human being who is in disharmony within, that it has indefinite, inhuman conduct; it is not yet able to realise living with its natural characteristic.
- Through human education and sanskar, we can ensure right understanding in us; this, in turn, will ensure the right feeling in us.
- With right understanding and right feeling in the Self, we will be able to ensure the continuity of harmony and happiness in ourselves and live accordingly

Participation of Human Being in Entire Nature

Physical order: Soil, water, air...

Protect its **innateness** (**existence**)
(eg. Protect **constitution** of Earth)

Bio order: Plants, trees...

Protect and nurture its **innateness** (**existence and growth**)
(eg. Ploughing farmland)

Ensure its **inheritance** (**seed**)
(eg. Maintain seed of rice)

Animal order: Animals and birds

Protect its **innateness** (**will to live**)
(eg. Adequate forest, food, shelter)
Ensure its **inheritance** (**breed**)
(eg. Maintain breed of cow)

Human order: Human being

Protect its **innateness** (**will to live with continuous happiness**)
(eg. Provide societal systems for facilitating and living with right understanding)
Ensure its **inheritance** (**education-sanskar**)
(eg. Ensure human education-sanskar)

Participation of Human Being in Entire Nature

Preservation (enrichment, protection and right utilization) of nature
and

Prosperity, fulfilment of human needs (in a manner that preserves nature)

i.e. by:

- Protecting its **innateness**
- Protecting and enriching its **inheritance**
- Making right utilization of nature, in line with its **activity**

(or at least not violating their innateness, inheritance or activity)

- To develop clarity about our participation in nature and how to fulfilling that participation:
- Facilitate a conducive environment for the activities of all the four orders in nature (or at least not violate them)
- Facilitate the innateness of all the four orders in nature (or at least not violate it)
- Participate with our natural characteristic and facilitate the natural characteristic of all the four orders in nature (or at least not violate it)
- Ensure the inheritance of all the four orders of nature (or at least not violate it)

Tendency of Human Living with Animal Consciousness

Wretchedness The feeling I can not take care of my body,
hence I resort to being dependent on the other

Cunningness The feeling I can not take care of my body,
hence I resort to beguiling the other

Cruelty The feeling I can not take care of my body,
hence I resort to forcefulness & violence

Natural Characteristic of Human Living with Human Consciousness

Perseverance Being assured that the all-encompassing solution is to
understand & to live in harmony at all 4 levels, I live
with this commitment without any perturbation

Bravery The commitment to help the other develop right
understanding & to live accordingly

Generosity Readiness to invest oneself, one's body & physical facility
to help the other develop right understanding & to live
accordingly

Participation of Human Being in Entire Nature

To understand the inherent harmony in nature and to live accordingly, i.e.

- To facilitate a conducive environment for the **activity** (at least not violate it) of all orders
- To facilitate the **innateness** (or at least not violate it) of all orders
- To facilitate the **inheritance** (or at least not violate it) of all orders

Order	Human Participation for Mutual Fulfillment
Physical Order	Facilitate its existence by ensuring conducive environment and maintaining / ensuring its constitution (eg. constitution of earth)
Bio Order	Facilitate its growth by ensuring conducive environment and maintaining / ensuring its seed (e.g. seed of rice)
Animal Order	Facilitate care of the body by ensuring physical facility, environment for existence & growth of body. To ensure its will to live Maintaining / ensuring its breed (eg. breed of cow)
Human Order	Facilitate care of the body by ensuring physical facility, environment for existence & growth of body Facilitate its will to live with continuous happiness by ensuring human education-sanskar , participating in developing / maintaining undivided society & universal human order

Order	Human Participation for Mutual Fulfilment
Physica I Order	Facilitating the existence of the unit by ensuring a conducive environment and maintaining / ensuring its constitution
Bio Order	Facilitating the unit's growth by ensuring a conducive environment and maintaining / ensuring its seed
Animal Order	Facilitating nurturing and caring of the animal body by ensuring physical facility and suitable environment for its existence and growth. Facilitating the fulfilment of the will of the animal Self to live . Facilitating the maintenance of its tradition, by maintaining its breed
Human Order	Facilitating nurturing and caring of the human body by ensuring physical facility and suitable environment for existence and growth. Facilitating the fulfilment of the will of the Self to live with continuous happiness by providing human education-sanskar to every individual, and participating in developing / maintaining an undivided society and universal human order

Sum Up

1. Physical order	– soil, metals etc.	} Nature = Collection of Units = 4 Orders
2. Bio order	– trees, plants etc.	
3. Animal order	– animals, birds etc.	
4. Human order	– human beings	
		} Relationship of mutual fulfilment (harmony)

There is a relationship of mutual fulfilment (harmony) amongst these 4 orders. The first 3 orders are mutually fulfilling for each other. They are fulfilling for human being also. It is naturally acceptable to human beings to be fulfilling for all the orders

The role of human being is to realize this mutual fulfilment – For this, all that human beings need to do is:

1. To understand that mutual fulfilment (harmony) is inherent in nature – we do not have to create it
2. To live accordingly – then the mutual fulfilment amongst the 4 orders will be realised

and there is provision in nature for living with mutual fulfilment (harmony)

- Take any one environmental issue in your neighbourhood and try to find out the root cause of it. [for instance, water scarcity, air pollution, food adulteration, etc.]. What exactly can you contribute as an individual to the solution?

Realizing Existence as Co-existence at All Levels

The Holistic Perception of Harmony in Existence

Harmony in the Society ✓

Harmony in Nature/Existence – Existence

Process of Understanding

Self Exploration

Whatever is stated is a **Proposal** (Do not assume it to be true/ false)

Verify it on your own right

Existence =	Exist	+	Essence
Whatever	↓		↓
Exists	is/to be		harmony (mutual fulfillment)

Existence = Co- Existence = Units submerged in Space

The essence of whatever exists is harmony or mutual fulfillment. The essence of whatever is/whatever is to be, is to be in harmony or mutual fulfillment.

Units are identified by their **boundary, limitedness**

They appear to be **separate** from each other, in **isolation** from each other;

So, when we focus on units only, we see the isolation, the separateness, dividedness.

Now, **are they divided, isolated** or **are they related**?

We have seen that they are related, then what is the basis of relationship?

To understand this, we have to understand the **reality which remains undivided in the these divided units-** and that is **Space**,

So, we need to understand the **Space** also.

Existence = ~~Co Existence~~ = Units submerged in Space

- Two types of basic realities in existence – one is space and the other is units.
- The units are in space
- Units are inseparable from space, they are indivisible in space, they are submerged in space. These two realities always co-exist together.
- Space is unlimited and all-pervading whereas units are limited in size.

- Units are activity and they are active. Space is no activity. Units are submerged in space.
- Units are submerged in the space, it means units are in space, they are inseparable from space

Submergence implies three things:

- 1. Units are energised in space
- 2. Units are self-organised in space
- 3. Units recognize their relationship and fulfil it with every other unit in space

Existence as Co-existence – Units Submerged in Space

3.1.2. Knowledge of Existence

Existence
(= Co-existence = Units submerged in Space)

This is already in harmony

Only this part is remaining
And it has to happen in the
Self by the Self

Development
Linear - Not Cyclic

Existence (= Co-existence = Units submerged in Space)

Now we can see that...

Happiness is an indicator, a feedback, that we

- have understood harmony and
- live in harmony

} at all 4 levels of our being

Unhappiness is an indicator, a feedback, that we

- have not understood harmony and
- do not live in harmony

} at one or more of the 4 levels of our being

Our role is to make the effort for excellence

- to understand harmony and
- to live in harmony

} at all levels of our being

1. In the Self, as an Individual
2. In Family
3. In Society
4. In Nature/Existence

Continuous happiness

Existence is Co-existence

Human Being is by virtue of Co-existence; embedded in Co-existence

All the Human Being needs to do is

1. To understand Co-existence and
2. To live in Co-existence

Program for Human Being (Human Role in Existence)

Human beings have two important things to do:

1. To understand the co-existence

1.1. To understand co-existence –

1.2. To ensure the feeling, thought of co-existence –

Knowledge

(ज्ञान)

Resolution

(समाधान)

2. To live in co-existence

2.1. To live in co-existence with human-beings

–family to world family –

Undivided Society

(अखंड समाज)

2.2. To live in co-existence in nature

–family order to world family order –

Universal Human Order

(सार्वभौम

व्यवस्था)

By these two being ensured by human beings, the result will be Undivided Society and Universal Human Order on Earth, in which Harmony and peace are very natural outcomes

(and there is every provision in Existence for it)

Expression of Co-existence at Different Levels

Level. Name	Relationship	Details
4b. Existence	Co-existence	Co-existence Potential for human being to realise
4a. Nature	Mutual Fulfillment 4 orders	Harmony, relationship Potential for human being to be in harmony
3. Society	Right Understanding and Right Feeling, Prosperity, Fearlessness (Trust), Co-existence	Human-Nature relationship Potential, through participation of individuals and families in various societal systems
2. Family	Feeling of Co-existence Trust, Respect ... Love	Human-Human relationship Potential for right feeling in the Self – mutual happiness
1b. Individual Human Being	Co-existence of Self and Body	Self-Body relationship Potential for feeling of self-regulation
1a. Self	Continuous Happiness = Happiness, Peace, Satisfaction, Bliss...	Will to live with continuous happiness Potential for right understanding, right feeling and right thought
Universal Human Values		Mutually fulfilling behavior, work and participation...

Existence is in the form of co-existence. It is ever present
(Existence = Co- Existence = Units submerged in Space)

Every unit in existence is related with every other unit in existence in a mutually fulfilling manner

Synergy is intrinsic to existence, harmony is inherent in existence – we do not have to create it, we do not have to construct it

The role of Human Being is to realize this co-existence, this harmony, this order in existence.

For this, all that human beings need to do is:

1. To understand the inherent harmony, the co-existence in existence
2. To live accordingly – to live with the feeling of harmony or co-existence
(and there is every provision in existence for living in co-existence)
